

YOUR NEIGHBOR'S SKYRUN STORY

The Challenge

When Katherine bought her condo in Copper, she partnered with a large property management company. She realized that after the high commission fees, she was making less revenue than she had hoped. She was also struggling to get someone on the phone when she needed something for her property.

- ✓ No time to self manage
- ✓ Unresponsive property manager
- ✓ High commission fees
- ✓ Trouble booking owner stays

- ✓ SkyRun is quick to respond
- ✓ SR helps with home improvement
- ✓ SR gives Katherine flexibility
- ✓ SR has better commission rates

The Solution

Katherine started looking to see if she could find a more responsive property manager that had a lower commission rate. After talking with SkyRun, she decided to make the switch. Katherine now has a lower commission rate, and her property is generating more revenue for her. SkyRun has also been able to coordinate with contractors to help complete projects for her home while she is away. The best part is she now has a property manager who is quick to respond if she ever needs anything for her property.
